THE BRAINS BEHIND SAVING YOURS.™

I am part of the "Sandwich Generation."

I cared for a young child at the same time as caring for my mom. At the young age of 64, my mom was diagnosed with Alzheimer's. The Alzheimer's Association really helped me look at the journey I was on through a different lens. I never imagined that I would reach out or need that help, but I did. I'm so thankful for that advice and support.

- Crista Martinez Padua
